SCHREIBER'S OWN RECORDING STAR HAS NEW RECORD

Schreiber's own Cosmo Filane has a new LP Record to his credit! The record, recorded in London, England last June, was arranged and conducted by Art Snider of Toronto, Cosmo's vocal coach. It also features "The Breakaways". The title of the record "Small Town Boy" is also one of the numbers he sings.

In the write-up on the back of the record Cosmo's home town and the north shore of Lake Superior are mentioned. Here's a boost to our district which should be reciprocated by every individual on the North Shore getting behind and plugging for our "Small Town Boy".

About seven years ago Cos made his debut in Toronto show business and had made appearances on radio, television and had a part in Canada's only full length movie. He then decided to make singing his career. According to Art Snider, Cosmo, at that time was almost tone deaf (this we doubt) but, with constant practice and assistance from Dave Thomas, CBC's star builder, Cosmo's first record was produced. This was a 'mild' hit. This time, with all of us giving Cos a big push up that ladder of sweet success, maybe "Small Town Boy" will land way up there on top.

Cosmo will appear on the Dick Wilson Show on Channel 2 this Saturday, October 23rd. Get those calls and letters in and let the Lakehead know that we are all behind our small town boy--COSMO FILANE.
