A REVIEW OF 1965

We all look to the New Year with hope and anticipation.

1965 feebly stepped over the gateway of history but we recall how it brought us a brighter outlook for the future as our main industry, Commercial Fishing, has started back to increase its supply of Lake Superior trout. They were less marked by the eel and of heavier weight. With more tonnage, fishermen have been given a brighter outlook for years to come.

The Zenmac Mines Ltd. have their processing mill at Selim almost ready to begin operations in 1966 and hope to employ around sixty men. This industry will increase the population of the village and assure employment for many.

Of course everything did not come up roses for 1965. There were problems to cope with, some had a measure of sadness and personal frustration that each year inevitably holds for some. No doubt many snags will be left behind by the old year and these we will have to wrestle with in the months of the new year ahead of us. With God's help, let us make it a bright and prosperous year.

SOCIAL & PERSONAL

A jolly Christmas party was held at Mrs. Todesco's home by the members of the Altar Society

with their husbands as guests. Games of bridge and cribbage were enjoyed and a buffet supper was served from a table decorated in the Christmas theme. Present were Mr. & Mrs. W.
