### GRATITUDE NOT OVERWHELMING

THE PREACHER WAS MAKING A POINT that people are not as grateful as they should be for mercies granted. His text was based on the story of the ten men who were cured of a loathsome disease, but only one of whom took the trouble to show his gratitude.

This brings to mind that there are twenty million people in Canada, and it is fairly certain that not one person in ten takes the trouble to realize that life on this continent is better than life is elsewhere.
