Commercial fishing in Rossport has appeared far above last year's lift. Good catches in quality and quantity are reported with fish ranging from 6 to 12 1/2 lbs. Few whitefish were caught but lake trout were of exceptional quality with very few lamprey marks. Some fish had missing fins showing they were planted fingerlings. The size and amount show the fish are coming back.

HOME AND SCHOOL ASSOCIATION MEETS

Schreiber Home and School Association enjoyed an address, at their May meeting, by Dr. Hart, Dean of Science, Lakehead University. The president, Mrs. Bill Cocks, introduced Dr. Hart who gave a brief history of the University, describing its expansion to date.

He urged parents to encourage students to make their own decision in the choice of a career and to assist them in every way to secure information on the one chosen. He also spoke on property required for the expansion program, the buildings and financing of same.

Top men in their field are required for the Staff and there is a need for research equipment, endowments and scholarships. Following his address Dr. Hart answered questions from the audience.
