

OUTLINE OF COURSES AT SCHREIBER HIGH SCHOOL

There have been many inquiries regarding the courses offered at Schreiber High School for this coming year. The Principal, Mr. E.E. Forgues has stated that when the school opens on September 6th, it will offer, as planned, the Four-Year Business and Commerce, grades 9 and 10, and the Five-Year Arts and Science (4, 5 or 6 options as desired) grades 9 to 13.

The subjects taken in grade nine Business and Commerce or Arts and Science are selected so that the students may investigate both fields and transfer freely at the end of the year should they wish to do so. It is felt that students need this one year in High School before they can plan their career. At the grade ten level, it is still possible to transfer under special arrangements. Beyond grade ten, a student may transfer from one branch to another by repeating a year in that branch. Since the commercial option is also offered in the Arts and Science at Schreiber, it will be easier for those students to transfer to the Business and Commerce course should they wish to do so. Grade 11 in this branch will be offered next year and Grade 12 the following year.

The Business and Commerce course is a complete business course in itself, preparing students to go directly to work with no further training required. With the institution of Community Colleges, Vocational Centers and Institutes of Technology, graduates from this course may, however, take post-secondary school training.

Schreiber High School will continue to offer the full Five Year Arts and Science with a choice of four, five or six options. This course will continue to lead to Universities, Teachers' Colleges, Nursing Schools, and other Post-Secondary Institutions.

When asked about the grade 13 results the Principal said he was very pleased to say that twenty students will obtain their Secondary School Honour Graduation Diplomas and that possibly two or three more might get diplomas on appeals.

This year students in grade 13 may choose one of thirty-six combinations for seven credits or one of eighteen combinations for nine credits. This is probably as much as is offered anywhere in the Province. A program of Seminars for grade 13 subjects will be implemented to give an opportunity to students to study in depth.

SCHOOL WILL BEGIN ON TUESDAY MORNING,

SEPTEMBER 6 AT 9:00 O'CLOCK WITH A GENERAL ASSEMBLY IN THE GYMNASIUM. OUT OF TOWN STUDENTS NEED NOT BRING A LUNCH SINCE CLASSES WILL BE DISMISSED AT 11.50 O'CLOCK ON THAT DAY.
