the local paper following resignation.

CARIBOU HERD STUDY STARTS SEPTEMBER 7TH

The Kimberly-Clark Pulp and Paper Company has
been advised by the Ontario Department of Lands
and Forests that an International joint study of the
caribou herd of the Kimberly-Clark property on the
Slate Islands will be made commencing September
7th and continuing for a ten day period.

The party will be headed up by six or seven
prominent scientists including biologists from both
Ontario and Wisconsin. The purpose of the study is
to improve the strain by removing some and intro-
ducing others to achieve a mix in the herd. Their
base of operations will be the Kimberly-Clark
docking area and cabin.
