

FRENCH TEACHER HONOURED

One of the most amusing parties of the year was given by the adult French Conversation class to their teacher, Jean Paul Tessier, when since none of them (due to unavoidable absenteeism) had graduated, they instead presented him with a very formal document attesting to his ability as a teacher. The group met in the home of Mrs. Bill Hawke, following the last class, and in German, Dutch, Finnish and Italian, wished him well, and gave their appreciation of the winter classes. Various amusing small gifts were presented. Don Beno presented the Teaching Certificate, and on behalf of the group, Father Cano presented a formal gift. Mrs. L.R.Tremblay made a special cake for the party, topped with a crocodile and a porcupine, in tribute to one particular lesson.

An unusual record of civic interest was acknowledged when the Schreiber Town Council sent Cyril Sparkes a special letter of commendation for the 40 years of voluntary service he has given the local fire brigade, still an active member.

Following a recent class visit to a display of Eskimo Prints in the Terrace Bay Art Gallery, Mr. A.York's Grade 5 class at the Public School decided to try their own versions.

Much experimenting was needed before the technique was developed sufficiently to produce clear prints. Linoleum was used, and a variety of inks tried before results were obtained.

They carried on the Eskimo theme as being most suited to the medium and some of the very handsome prints at present on display in the school are shown in the photograph.

In a novel Astronauts Into Space ceremony, nine Brownies flew up to Guides at a regular Brownie meeting, attended by many parents and friends. They were presented to Guide leaders Lola Scott and Marilyn Cook, following the enthusiastic count down and blast off vociferously given by the Brownies. During the evening Susan Dimmery was presented with her sewing and cooking badge.
