**PRESS RELEASE ..**

Jack Stokes, New Democratic Party Candidate in Riding of Thunder Bay, has been touring the Highway 11 area. In Beardmore, Mr. Stokes found that residents have a real problem.

They have no proper sewage system, and no central water supply. Private wells are running dry, due to Department of Highways work on road running through town. Citizens melt snow for washing and cleaning purposes and have to fetch drinking water from as far as two miles. Most tho' not all, homes have septic tanks, and overflow pipes must be installed to the river, a considerable distance. "In such a situation, the danger of epidemics cannot be overlooked." Mr. Stokes said. "Some action must be taken to correct matters before it is too late. I intend to contact the Ontario Water Resources Commission immediately to see if something can be done."

The town is an Improvement District with the Board appointed by the Department of Municipal Affairs. The present Board is made up of two representatives from the Pulp and Paper Company Domain, and one from the Department of Highways. There is no representative of local property owners. Some months ago, several cases of diphtheria occurred in the area, and two children died of the disease.

Following his visit to Beardmore, Mr. Stokes held a meeting at Camp 40, Abitibi, where over eighty men turned out to hear a discussion on various aspects of New Democratic Party Policy and on Wednesday and Thursday, Mr. Stokes toured Geraldton and LongLac enjoying a social evening with members and supporters in Geraldton.
