Sherwin Miller and Cliff Knauff were given a joint party in Don Stewart's camp at Walker's Lake and presented with a farewell gift by a group of friends prior to their departure to the West Coast.

WHY US??

How can the development of a university at the Lakehead mean anything to us here in Terrace Bay? Is this just another drive for our money? What are we going to get out of an educational boom 140 miles to the west of us?

We are a young community. Primary and Secondary education for our children has been and is of extreme importance to us. Now the majority of these children are fast approaching the time when they must go away for higher education. No longer does the cry "what is good enough for Dad, is good enough for son" hold, especially when it applies to education. Everyone realizes the necessity for further education in this day of increasing automation and specialization. Educators have known this; parents are becoming more aware of it; industry admits it needs men with special knowledge and skills; labour wants increased incomes and fuller lives for its members and leaders.

Education is big business. It is also good business. Industry does not contribute sizeable sums to futile endeavour. It major industries such as ours are contributing to the growth of Lakehead University, surely we, as individuals, can see there must be sense in contributing dollars as a pledge of faith in our material and cultural growth in this area. The fact that for every \$1 raised in Northwestern Ontario, an additional \$6. will be contributed by the Provincial and Federal Governments, sounds like good business too.

Increased monies coming into the Lakehead area should mean something to us as businessmen. But it should also mean much to us as parents; of the 1966 graduating class, 80% remained in the Lakehead area to work in industry or research or to teach. It should mean something to us as adults that we have had and can continue to have credit degree courses given in Terrace Bay, courses which contribute to increased earning power as well as to an enriched mental outlook. All this should add up to the realization that our contribution is an investment for us, for our children and for our children's children.

Representatives of Lakehead University have arranged to present their program to the residents of Terrace Bay on Monday, May 8th at 8 p.m. in the High School Auditorium. Come and hear what they have to offer; we are also encouraged to bring any questions pertaining to any aspect of the Lakehead University we may have.

TEEN TALK

Teen Town held a successful dance Friday evening in a discotheque setting giving the High School Auditorium a coffee house atmosphere. Red and green spotlights with loud hit music playing were featured. D.J. for the evening was Bruce Lundberg who gave an unusual news report! Refreshments were available to end an enjoyable evening.

A Summer Festival is being planned by Teen Town for June 29, 30 and July 1. Heading the events is a Street Dance, a Beach Party and Bar B-Q, races and a Midway Circus for the youngsters. A Semi-Formal dance is planned to wind up the Festival and Centennial dress will be strongly encouraged. It will be an event for the whole town to attend and one you won't want to miss.
