NOTICE TO RESIDENTS OF TERRACE BAY

The original assessment of all properties within the boundaries of the Township of Terrace Bay, was established during the year 1948.

Since that time there has been few changes made to the original assessment. All buildings constructed since 1948 have been assessed on the same basis. Many changes have taken place over the years, both in the improvement of properties, and also, in the method of assessing properties.

Council feel that it is most desirable that our assessment be brought up to date and have therefore started a complete re-assessment of all properties, using the new Provincial Assessment Manual.

This then is a direct appeal to all residents to please co-operate with our employees when they call at your home.

W.E. CAVANAUGH,
 Reeve,
 The Corporation of The
 Township of Terrace Bay.

In the ten years prior to the opening of Lakehead College in 1963, it is estimated that each year 500 university graduates were lost from Northwestern Ontario, because they failed to return from distant campuses to apply their newly developed abilities. Last year however 80% of the Lakehead graduates remained in Northwestern Ontario -
