## HIGHSCHOOL EXPANSION APPROVED

Approval for the expansion of the Terrace Bay High School has been received from the Department of Education and construction will be underway before the Fall, thereby assuring use for September, 1968.

The new facilities include six classrooms, four shops and a new library. Modifications to the existing building will provide a Guidance Room and expanded office area.

Two new educational programs will be established: four year Science, Technology and Trades, and occupations for boys and girls. The present five year Arts and Sciences up to Grade 12 will continue.

As a result of our expansion, and through the working agreement with Schreiber, the opportunities for Terrace Bay students in the secondary schools will be vastly improved.
