SAVINGS BONDS (from Page 1)

saving. It may be a cherished future project such as providing a university education for their children, buying a home, a business or farm, towards the purchase of new furniture or preparing for a more comfortable life after retirement. Canada Savings Bonds provide an ideal method of putting aside enough money to realize such a project.

Last year, 694,000 employees across Canada bought \$269, million worth of Canada Savings Bonds through payroll savings plans. In Ontario sales through payroll savings alone amounted to nearly \$95-million through out nearly 236,000 applications.

A new feature of this year's series is that purchasers may buy up to \$50,000 five times the limit applied to last year's issue, and purchasers are not confined to individuals, but may be groups or organizations. As in former years, Canada Savings Bonds can be cashed at any time by the holder at any bank in Canada for their full face value plus earned interest. The bonds are being issued in denominations ranging from \$50. through to \$25,000.

In addition, to being purchased through payroll savings, the new series will also be available for purchase from chartered banks, investment dealers, stock brokers and trust and loan companies.
