Have You Ever Seen a Galanty?

This was the old name for the shows put on at Christmas time by traveling entertainers, who projected shadow shows in pantomime, using silhouetted figures, by means of a magic lantern. The galanty shows were projected on a white sheet, or on the ceiling. But before long, magic lanterns became cheap and

plentiful, so people had them in their homes, with an array of colored slides — and this became a popular home entertainment.

Now, many years later, and in spite of the attractions of television, the lineal descendants of those early magic lanterns continue to fascinate us. Who hasn't seen a series of color slides, usually the well-known "pictures of our trip," proudly shown by photographer friends?

Merry Christmas to All!

Be happy and full of good cheer now and throughout the holiday season.

Council Quotes - cont'd from page 3
operators to co-operate with the skiers, by staying off ski runs, and areas where trails are used for skiing, and to help insure the safety of all skiers.

This led into a discussion by Council regarding proposals and suggestions to govern the use of snow machines in and around Terrace Bay. Council feels that rather than enforcing unreasonable legislation on snow machine users, they are trying to come up with a by-law that will insure the maximum of safety to others, with the minimum of objectionable rules for the operators. Suggestions were made that snow machines be restricted from travelling on all sidewalks, that the curfew hours remain in effect, being from 12 midnight to 7 a.m., and that restricted times for use of snow machines on school properties be imposed, that being that no use of machines during school hours would be allowed. Further suggestions were that snow machines be prohibited from certain streets and private property, being in part the portion of the frontage on Highway 17, and the Recreation Centre, hospital grounds, Selkirk Avenue, from Hudson Drive, south, to Lot 19, Simcoe Plaza, Radisson Avenue from Selkirk Avenue
