Drug Regulations

Due to provincial and Ontario College of Pharmacy regulations:

- 1) A Registered Pharmacist is not at liberty to advise on nature of drug or use of drug, as prescribed by a medical practitioner.
- 2) A Registered Pharmacist cannot dispense "Prescription Drugs" unless prescribed by a licensed medical practitioner nor can he refill prescriptions unless authorized by a medical practitioner.

Visiting with the Paulsen family during the holidays were their daughter Dianne who attends the University of Toronto and Mrs. Paulsen's mother, Mrs. A. La-junesse of Winnipeg.

NEW DEPARTMENT OF MINES PUBLICATION

An entirely new type of publication designed specifically for the use of prospectors and exploration companies is now ready for distribution by the Ontario Department of Mines.

The Register of Assessment Work tabulates all assessment work on mining claims filed with the Department between June 1, 1965 and December 31, 1966. It includes information as to where core logs, geological and geophysical reports and other relevant data may be examined.

The first half of the report is an alphabetical arrangement of townships and map areas showing the work reported in each. The second section is an alphabetical cross-index.
