## SKI CLASSES FOR ADULT CLUB MEMBERS

Saturday morning ski classes have never been well attended by adult club members. This year, for the first time, Instructors are available for Tuesday night adult classes; Wednesday afternoon for adult ladies classes, or both if enough interest is shown. Adults can signify interest in the above classes by phoning C. Wise at 3306. Lessons will begin immediately if enough people are heard from, to form classes of worthwhile size.

These lessons are being offered to adults in addition to the regular Saturday morning classes. Adults, of course are still welcome to attend on Saturday mornings. All lessons will be free to club members. **REMINDER-** Club Crests are available in the Chalet each ski period.

**SKI IN STYLE - WEAR A CLUB CREST !**

The picture above by M. Lundberg, shows the three McBride children displaying the house made out of edible delights. Children from Terrace Bay Public School Kindergarten, and grades 2 and 3 made the house out of cookies, cake and nine egg whites, with twinkle lights inside and around the roof.

## COHO SALMON FOR LAKE SUPERIOR?

Reeve W.E. Cavanaugh officiated at the ceremony when D. Rafalant and S. Kolesar were sworn in as President and vice-president, consecutively, of Terrace Bay Chamber of Commerce for the current year, during last Thursday's regular meeting.

Correspondence included a letter from the municipal office which detailed problems encountered by local families and asked that Chamber members

ization during the previous year.

- (b) The Treasurer shall present the Financial Statement.
- (c) The election shall be held to replace any retiring members of the Board.

ed to revise same before printing.

Member R. Kenney gave a graphic description of the impact planting of Coho Salmon in Lakes Michigan and Superior has had on the tourist industry, and the economics of bordering states in the U.S.A. Members agreed that pressure should be brought to bear on responsible departments of the government asking that similar plantings be carried out in the North Shore waters of Lake Superior. The fish reach maturity in two to three years and average sizes range up to 16 pounds. From data available, commercial as well as sporting possibilities can be envisaged.

Sales of Ontario's 1968 licence plates are lagging nearly two per cent behind last year's pace.

If the trend continues, line-ups in the last few days in February could be the heaviest on record. So far, reports the Ontario Department of Transport, only 17.3 % have been sold in comparison with last year's 19.1% of the total.

Let's save ourself hours of waiting in a line-up and buy the 1968 licence plates now.
