**If you're
planning to
modernize
your home,
here's the place
to begin.**

Modernizing your home can be a delightful experience. Home improvements can do a lot to help make your way of living better than ever. But before you start to modernize, you should take care of one thing first: your household wiring.

If you begin your modernization programme by re-wiring, almost everything about your home will suddenly seem better. You'll have all the electrical outlets you need. Your appliances will perform better, and you can add all the new ones you're ever likely to need without the annoyance of overloaded circuits or blown fuses. Re-wiring will let you take advantage of the new ideas in household lighting. With decorative exterior lighting you'll be able to enjoy patio living on pleasant summer evenings. You will, in fact, be opening the doors to the joys of all-electric living, including the quiet comfort of electric heating. Start modernizing your home by re-wiring.

THE HYDRO FINANCE PLAN will let you re-wire your home right now. Call a qualified electrical contractor for details, or ask your Hydro.
