

## SCHREIBER RECREATION COMMITTEE TO BE ESTABLISHED

Ray Wittenberg, regional co-ordinator with the Department of Education, was in Schreiber to confer with the municipal council and interested citizens in an endeavour to establish a recreational committee which will develop recreational programs in the town.

Mr. Wittenberg stated the council is required to pass a by-law under the terms of the Department of Education Act to provide for the operation and maintenance of the Community Centre, pursuant to the Community Centres Act. This by-law must give its first and second readings, and then send them to Mr. Wittenberg, who will forward it to the Minister for approval, after which it is returned to the local council.

The recreation committee will be responsible for an approved program of recreation in the community and shall be entitled to grants of 33 1/3 % of all money spent on leadership up to \$5,000; also 25% up to \$1,000 toward maintenance expenditure on facilities such as heating, electricity, cleaning supplies, with all accounts to be approved by the municipal council. The recreation committee shall be appointed by council and consist of 7 to 12 persons, two of which must be members of the council. Within this committee there will be a chairman, secretary and sub-committee responsible for certain phases of the program. They should become conversant with what recreation is, and then meet with the representatives of the Department to plan towards a session with interested people of all ages.

Mr. Wittenberg stated that the Department of Education offers leadership courses in the community and is willing to assist in the development of programs to upgrade them in giving information to others.
