MRS. RAFALANT WINS OIL PAINTING

OPEN LETTER TO REEVE AND TOWN COUNCIL

To err is the common lot of humanity, but when repetition of the same error occurs within a short period then it demonstrates very poor judgement and carelessness.

Sometime ago the town purchased tires for the police car, from Schreiber, after receiving bids from two of the three local service stations operating at that time.

At the time no public complaint was made because it was felt that this gross irregularity would not be repeated.

Last week the police car was brought into Schreiber to have work done on the exhaust system. This operation could have been done very easily by any one of the four service stations in town.

Why this brazen disregard for local patronage?

Terrace Bay Enterprises, who has been in

(Cont'd next column)

business for the last twenty years and who under the present management has done its utmost in providing proper services to the Community, challenges the right of the Reeve and Council to go out of town for services which are available locally by four authorized licensed service stations.

This does not speak too well for, and is a direct reflection on the efficiency and capabilities of the local service stations.

I question the shameful disregard of taxpayers.

This certainly reduces your Buy Local slogan to a comedy. (Cont'd on page 7)
