SKI CLUB ANNOUNCEMENT

Through the joint effort of Kimberly-Clark Mill and Woodlands Divisions, a building suitable for use as a Ski Chalet has recently been made available to the Terrace Bay Ski Club. It is expected that this building will be moved to the hill in ample time to prepare it for use during the entire 1968-69 ski season. The building should provide us with a chalet facility unsurpassed for a club of our size.

The Club Executive, on behalf of all Ski Club Members, wishes to thank Kimberly-Clark for their support at this critical time in the life of our club.

Much time and effort on the part of our membership will be needed to prepare for the coming ski season. The Club Executive is currently developing a program toward this end. Members will be informed of the details in the near future.
