## ELEMENTARY SCHOOL REGISTRATIONS

Mr. Michael Anderson, originally from Kapuskasing and recently from Elliot Lake, has come to Terrace Bay to replace Mr. Ray Kenney as principal of St. Martin's Separate School.

Total enrolment this year is 256. Twenty-three are Kindergarten beginners. The staff includes Mrs. R. Mitchell, Sister Margaret John, recently of St. Joseph's College in North Bay; Mrs. G. Soughton; Mrs. E. Falzetta; Mrs. L. Rajotte, Sister Rebecca, also from North Bay; Mrs. E. Molinski who taught in Schreiber last year; Mr. E. McAdam and Mrs. S. Angus, Principal's supply teacher.

Twenty Kindergarten children started the enrolment at the Public School, where the total number of students is 247.

Teachers are as follows: Mrs. L. Husser; Mrs. L. West; Mrs. S. Mikus; Miss B. Hamilton; Mrs. A. Brown who was formerly a social worker in New Brunswick; Mr. G. Chambers; Mr. N. Trach, Mr. D. Briscoe and Mrs. A. Baron, Principals Relief.

All I'm looking for is a man who is kind and understanding. Is that too much to ask of a millionaire?

## PARTY LINE

POLICE ARE NOT LIKELY to be opposed to the right to listen in on people's private telephone conversations and the like. Reason is that a policeman, by the nature of things, wants all the help he can get in catching malefactors of great wealth or no wealth at all, and denial of the right to use modern devices will hinder him in his job.

The late B. K. Sandwell once remarked that perhaps the police didn't need the help, but they certainly were enjoying it.

The honest person should not fear wire-tapping but, on the other hand, is he or she not entitled to privacy? There are harmless conversations, say, between a young man and his girlfriend that he would like to keep quiet, and so would she. There are conversations not so innocent that a private detective would like to listen in on.

It is not enough to say that people who want these conveniences must first have a search warrant. In the ordinary sense, a search warrant means that the person who is being searched knows what's going on; a person who is being searched by telephone doesn't even know that his conversation is the subject of inquiry.
