Be ice-safety conscious! Discourage small children from playing on blocks of floating ice and rafts. Small bodies of water, such as ponds and small lakes offer the safest conditions for childrens' skating enjoyment.

Road Safety Workshop

A "happening" for young people on Friday evening is likely to be the grooviest event of the Lakehead Road Safety Workshops January 16, 17 and 18.

It also could be one of the most effective events, for it will give young people an unusual opportunity to take a hard look at the accident problem and have their say about it.

The program will be a "first" for Ontario, and probably for Canada. It will begin at 7.30 p.m. in the Coliseum at the Lakehead Exhibition Grounds.

Six young people and six highly qualified adults will have a panel discussion on what young people can do to help prevent road accidents. A question and answer discussion period will follow.

Finally they will switch from talk to music with dancing to the sound of "The Thorns". Dick Wilson of CKPR will be master of ceremonies. Decorations are being handled by students of Gron Morgan High and the Northwestern Division of the Ontario Motor League.

The name of the program fits the nature of the evening - "Road Safety Speak-In and Spi n Out".
