**SNOWMOBILING IS THE GAME**

Here it is, folks, the brand spanking new Model 189 Snow Cruiser!

**SNOWCRUISER IS THE NAME**

Eighteen horses give this 325-pound champion the heart for heavy going and the zip for fancy maneuvering. Smart and sporty, it's the familiar Snow Cruiser blue, with red and white accented trim. The red and white seat has ample room for two adults, along with a roomy storage compartment. A shaped, plastic glass windscreen offers optimum visibility and wind protection.

WE NOT ONLY SELL THESE MACHINES, WE ALSO SERVICE THEM!

The 189 has a 15-1/2 inch rubber-covered moisture-proof track, with heat hardened steel cleats to insure positive traction under all snow conditions. Other features include a high-low headlight and chromed handle bar with sure grip rubber grips. Equipped with a Salisbury variable speed transmission and caliper type hand brake, the Snow Cruiser 189 gives smooth, efficient acceleration along with sure, safe stopping ability. The welded steel construction of the chassis and the protective strength of the fiberglass cab make the 189 one of the sturdiest lightweights on the market today.
