REGIONAL RECREATION CONFERENCE.

Schreiber Recreation committee sponsored a conference of Region Recreation Committees with Ray Wittenberg as guest speaker. Among others attending were Miss Margaret Phillips, district consultant of Youth and Recreation Branch, Walter Melnik. David Courtemanche Frank Anderson, and Jim Cumming of Terrace Bay.

Bill Malcolm, local president, and councillor Harold McParland welcomed the group. Mr.

Wittenberg spoke of changes taking place in every aspect of life these days and in turn such committees as these are bound to reflect to some degree changes. Many communities are reluctant to accept newer ways, wary of different values and changes in power structure. Certainly the community recreation committees are affected by these changes in achieving their objective, with programs and activities evaluated from a different point of view, and some former ones perhaps dropped as irrelevant.

The municipal recreation committee, alert to its place and responsibility can effect some of the coming changes and by its leadership shape public opinion to understand and to a great part accept the innovations, no where can there be a greater challenge in this particular area of civic responsibility than in Northwestern Ontario at the present time.

The conference included group discussions, work sessions a panel for a question period. During the two day session a luncheon and dinner were served by the Anglican Church Women and the United Church Women.
