Dwayne Thomas Manager.

GOLF CLUB NEWS

At last week's meeting Dick Rattray, this year's tournament chairman, proposed a program which should be quite interesting to the members. Dick, one of our better golfers has a keen interest in local golf and we wish him success in his extensive activities for this season.

Dan Rafalant chairman for this years Open, expressed confidence that he can maintain the high calibre of the two past years. In the past this event involved quite an expense, Dan feels that with a little more planning and promotion, which he explained in detail, there is no reason why this tourney should not be the largest in the district, especially now that the Videon has cancelled their annual event.

Ray Hansan will look after memberships this year and anyone can purchase this years' membership from Ray in Terrace and Neal Ross in Schreiber.

The course appears to be in excellent condition, Snowmobilers deserve a big thank you for their caution and consideration at a time when damage would have been inevitable.

Roy Cornfield, the greens keeper, assured the committee that there is no evidence of damage done by the winter snowmobile traffic. This is indeed good news and we hope that it will continue so.

Every member can help this year's ambitious program by purchasing his membership as soon as possible.

Very shortly the course will be opened with temporary greens and it is hoped that care will be taken to avoid damage to the grass. Any divot taken at this time of year is irreparable. Such damage could only be repaired by reseeding which takes time.

TERRACE BAY HIGH SCHOOL MET JOHN SMITH

Wednesday, April 9th, John Smith, a member of the Ontario Provincial Government, was a guest speaker at Terrace Bay High School. He belongs to the Progressive Conservative Party and represents Hamilton Mountain. He is also the youngest member of the legislation.

Mr. Smith is spending his Easter recess touring Ontario high schools to become more acquainted with teenage outlooks and opinions.

Mr. Smith presented a brief talk on politics in general. This was followed by a question and answer session. The questions covered a wide range of topics about which the students were interested, such as voting, drinking, the length of the school year and the duties of a politician.

Mr. Smith's visit was very worthwhile as most students gained some knowledge of politics.

Susan Graham.

Kiwanis Club Easter Seals - cont'd from page 8 ...

Easter Season. Eleven crippled children in Marathon, seven in Terrace Bay, two in Schreiber and one in Rossport will benefit directly from your gifts and all monies not needed for our local children are sent to the Ontario Society for Crippled Children for research treatment and rehabilitation of other children across the Province of Ontario. The children in our area suffer from a wide variety of ailments some of which can be serviced from the Lakehead Clinic for Crippled Children on North Lillie St. Fort William. The more serious and difficult ailments can be treated only in the Toronto Centre for Crippled Children. Five clinics will be held this year in Fort William to which the children in this area will be sent. The crippling diseases include Cerebral Palsy, Hydrocephalus, Polio, Congenital dislocation of the hip, Foot deformities, Arthro Gryposis, Ostio Chondroma, spinal and bone structure deformities and Heophilia. A District Nurse for the Society serves this area and any parent who suspects deformities - cont'd page 10
