Serving the District

May 8, 1969.

THE FOLLOWING NEWS STORY WAS RELEASED TODAY BY KIMBERLY-CLARK - NEENAH:

Kimberly-Clark corporation's first three months of 1969 was the best single quarter in the company's history. President Guy Minard told shareholders at the Annual meeting today.

Sales in the first quarter were 214,862,000, a 15 1/2 percent increase over the 185,972,000 in the first three months of Calendar 1968. Net income for the period was 13,996,000 or 1.37 a share. This is an 11 percent increase over earnings of 12,582,000 or 1.23 a share, for the first three months of last year.

Comparisons are based on restated figures for the year-ago quarter. Kimberly-Clark has changed its reporting period to a calendar year from an April 30 fiscal year.

Minard also announced that a planned stock offering has been recommended by the finance and executive committees of the Board of Directors to meet financing requirements for world wide capital expenditure programs. The Board is expected to act on the recommendation later today.

The plan calls for issuance to stockholders of rights to purchase one additional share of common stock for approximately each 10 shares held. The exact number of shares and the price would be determined just before the offering date and would depend upon stock market conditions at the time.

Minard said the offering planned for mid-June would not be made until a registration statement has been filed with the securities and exchange commission and has become effective.

The Board of Directors of Kimberly-Clark corporation today approved a financing plan announced earlier in the day at continued page 5....
