Murphy, Program Consultant, Ontario Department of Education and guest speaker at Schreiber High School Awards Banquet.

BELL TELEPHONE POTS AND PANS

The students and staff of Schreiber High School listened with pleasure to the talk and watching the slides of Mr. Dostaler, who is a 30 year employee of Bell Telephone of Canada.

Topic of his slides was "Pots and Pans" with a Purpose." P.O.T.S." stands for "Plain Old Telephone System" referring to the basic unit which has been in service for many, many, years and "P.A.N.S." meaning "Peculiar And Novel Services" indicating that many amazing developments are soon to be seen by the public. This will include the "touch" phone and the phone-picture set.

The slides revealed many research ideas and showed developments Bell Telephone is creating, which will be a major part of our lives some time in the near future.

The afternoon proved very enjoyable as everyone gave their undivided attention to Mr. Dostaler. His slides and talk were interesting, educational, and very informative. The speaker intimated that without an education you soon won't even be able to use the telephone. continued page 16
