OPEN HOUSE - by a Terrace Bay High School Student.

Last Wednesday the many tours through Terrace Bay High School proved very interesting and successful. Everyone was simply amazed and even stunned at the modern - up to date equipment that we have in our new addition. Some of the adults thought it a good idea to return to school so that they could also have a chance to use the new facilities of the various departments. Teachers and students alike were on hand to explain and demonstrate the equipment. The guides also helped pointing out interesting things they otherwise might not have noticed.

Some people found it hard to believe that the well lit, comfortable rooms were really part of our school. After the tour people gathered in our new spacious front lobby and chatted while they enjoyed the refreshments.
