LATER TV RECEPTION TURNED DOWN

The following type of letter will be mailed to district residents who petitioned for later TV reception on Channel 4. This was sent to the News by Keith Penner M.P. for Thunder Bay.

" Some weeks ago we acknowledged your request for an extension of late evening television service, advising that further information would be given when the total effect of such a change had been studied in terms of cost and percedent.

We are most sympathetic toward your need for a fuller late night service, and the examination we have made has been both extensive and definitive. It is, therefore, with regret that we must tell you that the provision of late Metro News and feature films from Station CBLT Toronto, is not possible at the present time. A very substantial financial commitment would be required to cover improved

service on the Geraldton complex and other LPRTV's across the country for which Geraldton would serve as a precedent."

The letter to Mr. Penner which accompanied the announcement above says

"Dear Mr. Penner;

This is further to my letter of May 2 with respect to the wish of people in north-western Ontario to receive late evening television following the National News and Viewpoint.

I mentioned then that our people were in the process of assessing the cost involved. This has been completed by our network people and I am attaching a copy of the type of letter which they will be sending out to some 1,300 viewers who have written to our Toronto offices. You will note that budget considerations have made it necessary to refuse this request

" I am sorry this is so but I want to assure you that our people did give it every possible consideration and it proved to be one of those desirable undertakings which we will simply have to postpone, along with many others, until such time as we may have more funds for these purposes.

Thank you again for bringing this to our attention."
