

AGUASABON "OPEN" JULY 26th.

Don't forget the Aguasabon "Open" only two days left to enter. To enter just phone the following - D. Rafalant - 3292 or 3326; or Club House - 3844 or J. Roger 3635.

The "Open" will start this Saturday; tee off time is 9 a.m. D.S.T. We will be playing 18 holes on Saturday and 18 holes on Sunday. The course is in excellent condition and we hope to be using No. 3 and No. 7 greens. There will be over \$300.00 in amateur prizes. A barbeque will be held at the Club for \$1.50 a plate. There will be a social and dance at the Club Saturday night (free, everybody welcome - no minors). A lot of work has gone into this event and the support of the membership would certainly be appreciated.

Caddies will be need! Be at no. 1 tee at 8.45 am.

In the July 16th Twilight - G. Solly won class "A" event; C. Wise won class "B" event with S. Kolesar as runner-up and J. Wellings won class "C" event.

Good News! - Sandy Middleton will start coming down on weekends again. He will try to get down at least once every two weeks. Watch the club bulletin board for the exact dates. On the weekends that he is present, he will be holding a Free Junior Clinic at 9 a.m. Sunday mornings. All Juniors should take advantage of this service because professional advice can be invaluable to an inexperienced golfer.

The club executive held a meeting on July 15th It was decided that a training clinic and a rules committee will be formed.

The objective of the training clinic will be to supply basic information and training for new golfers

The rules committee is being established to perform the following objectives - (A) establish and interpret rules; (B) provide a means for the membership to become informed of course rules; (C) provide an organized method for members to voice complaints and get results.

More information will be supplied on these new groups in the future.

Congratulations U.S. - cont'd from page 4 . . . . .

came a "Star" one of the first sedans. This was followed by a "Packard" again a car which seemed indstructible. Some where in there came the first radio, a crystal set which only one person at a time

could enjoy. Rapid improvements followed and soon we had a monstrous machine which dominated our home. Then television! We remember watching with bated breath as one wrestler battered another in a set placed in a store window in Los Angeles. And the improvements in home appliances and the new ones we bought and enjoyed using.

The advances made by science technology, medicine have all been ours to enjoy in our life time. And yet there are many who think our world is a mess. Perhaps what we need is some kind of tranquilizer which, when released, will penetrate every corner of earth, every nook and cranny; one which will make us all more humble, and tolerant - one which would help us to live with one another in peace
