Letter to the Editor - cont'd from page 9

great majority of our citizens never hear about and therefore are not involved but who are so secure in the knowledge that we do have one of the better communities in which to live and rear our families that mere criticism of our town means just that a word to be ignored.

As Reeve, however, I do have concern about those from within, who take it upon themselves to try to organize programs and speak in the name of the Township without the required research or authority. Such action has caused both the Township and the Company embarrassment on at least two occasions recently.

Let us then not get too perturbed about these isolated petty differences and keep them in their proper perspective.

In closing may I suggest that there is yet another field in which we might be able to increase our local awareness and that is a better coverage of local events in your paper.

I think we can take a lesson from your Schreiber and Rosspport correspondents in the fine coverage they produce both in news and pictures each week.

(signed) W.E. Cavanaugh,
Reeve.
