To the residents of Mid-Canada and the Arctic

THE MID-CANADA DEVELOPMENT FOUNDATION, INC.

intends to submit a brief to the Federal Government concerning the Benson White Paper on Taxation and the new Credit Restrictions. Among other things the brief will deal with the need for incentive income tax provisions for residents of the North (Mid-Canada and the Arctic). The Foundation requests the views of the readers of this newspaper on the following questions:

1. Are residents of Mid-Canada and the Arctic penalized by way of cost of living, income taxes, transportation and other costs?
2. Should special income tax policies and provisions apply to residents of Mid-Canada and the Arctic to equalize their opportunities with the residents of Canada South; and/or should residents of Mid-Canada and the Arctic not only be equalized but as well be given income tax incentives. What should these incentives be?
3. Should the residents of Mid-Canada and the Arctic be exempt from the new credit restrictions imposed by the Federal Government, and if so, why?
4. What specific incentives should be considered for small businesses, secondary industries, and service industries in Mid-Canada and the Arctic?

Submissions should be sent to:
