TODAY'S CHILD

This chubby darling is Paul, 14 months old. Of Italian, English and Jewish descent, he has big blue eyes, long dark lashes and light brown hair. He is in good health except for occasional eczema which is easily controlled by medication. At the moment eggs and oranges are being kept out of his diet.

Paul is an active boy who likes to be on the go. Crawling is faster than walking for him so far. He makes friends quickly with children, but takes a little time to feel easy with strange adults and new surroundings.

This dear little fellow will have to go to a new home soon because his foster parents are moving out of the country. The Children's Aid Society hopes he will be adopted quickly so this sometimes-timid child will have only one move — to a loving permanent home.

To inquire about adopting Paul please write to Today's Child, Department of Social and Family Services, Parliament Buildings, Toronto 182. For general adoption information ask your Children's Aid Society.
