

## CORRECTION

We have received a request from Sister Gail McDonald asking for correct reporting of a meeting held recently in Schreiber regarding proposal to landscape Holy Angels School Grounds for use as a community Park.

Following is the erroneous reporting and correct interpretation: -

"The biggest obstacle to the plans appears to be that the grounds would remain the property of the Church, through it's school board".

"I would like it made clear that the property in no way, belongs to the Church. The property is owned by the Schreiber-Terrace Bay Roman Catholic Separate School Board, and they have offered the use of it, by the general public, after school hours and during vacation time.

The misquote in the May 7th issue has caused quite a bit of consternation."

Sister Gail McDonald"

Schreiber Public School and Holy Angels School are participating in a rather unique teacher-exchange program.

The teachers are trading classrooms for a day after spending some time before-hand planning the day together. Hopefully a closer relationship between the two staffs will result. Also a greater understanding and a closer relationship between the teachers and students of both schools should be achieved.

The Playground plans have materialized very nicely and it won't be long until major changes will be visible to the eye. Mr. J. Dreihuis has spent a great deal of time drawing up plans and staking the property. The heavy equipment has begun to work on changing the ground elevation and the slopes around the grounds.

Volunteers will be called upon to do a great deal of the manual labour.

## GRADE SIX AND SEVEN BAKE SALE

Grade six and seven of Holy Angels School held a bake sale May 6 to raise money for the planned playground. It was held in the gym for Kindergarten

to grade eight.

The winners of the cake draws were Pamela Glad and Mrs. G. Speck. A difficult game was to guess the amount of smarties in a jar. The winner of this was Shelby Kirkpatrick.

They were happy to announce that they managed to raise \$70.00 for the new playground. They will purchase one piece of equipment themselves.

Linda Beauparland and Jade Dukes.

## "THE OWL'S HOOT"

### THOUGHT OF THE WEEK

To have what we want is riches; but to be able to do without is power.

## ONTARIO JUNIOR MATHEMATICS CONTEST

Of the Schreiber High School students participating in the Ontario Junior Mathematics Contest sponsored by the University of Waterloo, Ted Ross placed first, followed by Clover Dukes and Alan Turner.

This is the second year in succession that Ted has placed first in the school, making him eligible for a plaque which was presented to him at the annual banquet held at Lakehead University on Saturday, May 9th. Last year, Ted received a Mathematics pin. Clover Dukes and Alan Turner also attended the recent banquet, accompanied by their Mathematics teacher, Mr. N. Truman.

Congratulations are extended to these students on their excellent efforts.
