

TERRACE BAY BOY SCOUTS ANNUAL REPORT 1969-70

The major events taking place this year were:

1. formation of a venturer troupe.
2. major improvements to scout hall.
3. a shift to more utilization of scouts in projects.
4. a town clean up campaign
5. presenting a trophy for most improved scout to R. Lapensky

A quick summary of the highlights of different parts of the scouting organization are as follows:

CUBS - We have two groups of about twenty-five Cubs per group. These groups are managed by nine leaders. The Cub Camp was three-four days and had an enrollment of forty Cubs.

There was various hikes throughout the year and good turnouts. The White Seal Cub group started a Cub of the Week project in which Cub's picture was put in the paper for his efforts.

SCOUTS - The Scout membership for 1969-70 was approximately twenty-seven Scouts with four leaders. Many Scouts completed a project of making kayaks. Scout R. Lapenski was presented with a trophy for the Most Improved Scout in the season.

A one week camp was held in which about thirty Scouts attended. The camp lost \$120.00 due to inexperienced management, but was successful otherwise. The group will be representing Canada at the Scout Olympics.

VENTURERS - A Venturer Company was formed this year. It consists of about seven young men and one co-ordinator. This company has gone on several expeditions including an overnite outside camping trip in February. The company is completely self sufficient and it is planning a ten day camping excursion this summer.

GROUP - As a group, the scouting organization has completed various projects over the past year. These include: - A Father Son Banquet in February. The attendance was 131. It was held in the Catholic Church and was a great success. Bill Megraw and Mel Nicol were presented with long service pins by R. Wills.

Installation of a sewage system in Scout Hall.

The Township of Terrace Bay gave the Scouts a \$400. grant to install the system. A septic tank, tile bed and toilet facilities were purchased and installed.

The Township of Terrace Bay and Kimberly Clark Pulp and Paper Company were presented with Plaques of thanks for their contributions to the Scout Hall.

Painted Scout Hall - R. Wills looked after the Project of painting the Scout Hall and did an excellent job.

Chimney - A chimney was purchased for the Scout Hall. It was installed by B. Sadewich and B. Megraw.

Town Clean Up Campaign - A town clean up campaign was held which was administrated by the Venturers. Kimberly Clark Pulp and Paper Company supplied the equipment required. About fifty venturers, scouts and cubs took part in the campaign and a campfire and weiner roast was held that night. An excellent clean up job was done by the groups.

Apple Sale - The Scout and Cub group held a very successful Apply Sale in September - \$288. profit was made.

Christmas Card Sale - The Scouts organized a very successful Christmas Card Sale in 1969. Over \$2000. worth of merchandise was sold. The profits from this venture are just being tabulated. D. Whicker organized the project with the Scouts. We would like to thank the people who supported us in this sale.

Future Plans - The one set back of the past season was the lack of help available for the group projects. As a result some of the required work was never done. Administration also was very poor due to insufficient people. As a result, one of the requirements for registration next year will be the placement of one of the parents on a working committee within the organization. We also hope to have a tentative program for the full year set up.

J. Rogers
Group Committee Chairman.
