

economy to support our good intentions. One way you can help when price and quality compare, shop Canadian.

more than a billion dollars have been spent on such projects making Ontario's sewage treatment facilities the best in Canada.

In Ontario, we're steadily beating the car in the battle for breath. Strict emission control regulations (the first of their kind in Canada) were introduced in 1968 and strengthened in 1969. The result: 1970 model cars contribute 70% less to air pollution than did pre-1969 models.

Pictured above is one of Ontario's 250 air monitoring stations. Some of these stations, equipped with the world's most advanced instrumentation, check air quality and weather data which is then telemetered directly to a central office for immediate assessment and action.

What's government doing about pollution?

The Ontario government is doing things. Since the formation of the Ontario Water Resources Commission in 1957 and the passing of the first provincial air pollution act in 1958, Ontario has become known as a world leader in the battle against pollution.

Industrial Pollution. It's a crime.

Stiff legislation is in force that makes pollution a crime in Ontario. It controls what our factories can put into the air and water and what they can't. These laws are being enforced and polluters are being fined. In addition Government engineers and pollution control experts are assisting industries in the planning, design and installation of pollution control equipment.

War in the air

Ontario has a task force at work clearing the air. The government has

Canada's life style of tomorrow presents many challenges. But it's Ontario's style to meet these challenges today.

TV Transmitters in the Geraldton to Wawa area were off the air for prolonged periods on a number of occasions.

This was caused by a breakdown of facilities of our power supplier. This problem has been cleared.

Also, on occasion our microwave network supplier has had problems that caused outages of picture or sound.

We are quite concerned with any interruptions that occur and our technicians in Geraldton and White River are alert to any malfunction."

A.E. Stapleton,
Supervisor of Transmitters

STOKES SAYS ASSISTANCE NEEDED FOR SPORTS

Jack Stokes MPP for Thunder Bay says that "The need for special assistance for northern Ontario sporting activities is obvious. Teams in the north have to travel great distances. They do not have the benefit of supervisory and coaching personnel to be found in Southern Ontario.

One aspect of northern Ontario development is that of providing cultural and sporting activity. Only a major response by the Ontario Athletic Commission will make this possible.

One step would be that of giving free transportation to teams travelling to find competition. This is a major budget item for every sport yet empty seats on trains go across the province every day.

GEORGE DeLONG

George DeLong were conducted Terrace Bay Community Church on was in Terrace Bay Cemetery, and the hymn chosen was "Abide

Quickshank, J. Gross, D. Laporte, town were Mrs. DeLong's mother, her-in-law from Wisconsin; another

sister, Mrs. Theda Wainwright from Winnipeg; a nephew, Mr. G. Galvin and Mr. and Mrs. D. Evans-Smith from Thunder Bay.

CBC REPORTS ON TV BREAKDOWN

The Canadian Broadcasting Corporation has written re breakdown on Geraldton and Wawa TV Transmitters as follows:-

"During the first two weeks of June our CBC
