

LAND OF THE MIDNIGHT SUN - Cont'd from page 14.....
and inside it is like an ice crystal cave.

The last day we attended a banquet held for us and stayed up all night to watch the sun. It doesn't ever go down in the month of July until about the eighteenth. The whole time we were there it never became dark. I truly enjoyed my unforgettable visit to Canada's Arctic Northwest Territories.

The color photos accompanying the article above have to be seen to be really appreciated. No captions were submitted.

AGUASABON GOLF CLUB NEWS

A meeting of the Board of Directors was held on Thursday, Sept.24th at the clubhouse. Included in the business of the meeting was the preliminary plans for the annual fall windup which, it is expected, will be held around the 23rd of October. More details on this annual event will be available in the near future.

It is noted that the water line to Nos.1, 2 and 3 greens is presently being installed.

Of interest to all members is the following statement issued by Kimberly-Clark Pulp and Paper Co. Ltd.

"Kimberly-Clark will continue to support the Aguasabon Golf Course during the 1971 season in much the same manner it has in the year 1970, i.e. a financial grant of \$2,000 for the up-keep of the golf course in general; the use of heavy equipment if and when it is available; consideration of requests for assistance in jobs of a special nature provided they are designed for the average golfer. In other words, the Company wishes to do the most good for the greatest number of members." Cont'd page 16..
