

Grade Eight Elections - cont'd from page 12 .....

participating in a Leaf-Raking Project.

The Pupils are hoping that, with the autumn weather definitely here, many people in town will be looking for capable workers to clean up their yards. If you are interested in the services of these pupils, you can arrange for them to rake your leaves by phoning 3777 between 4:00 and 5:30 p.m. any day.

The pupils are aware of the wonderful co-operation which previous grade eight classes received from the people of Terrace Bay and are hopeful that this will continue. They are trying to space several fund-raising projects over the next nine months rather than leave too many for the end of the school year.

Fall and Winter Brochures - cont'd from page 11 .....

to be delivered at your door, outlining the programmes available, as well as the changes that will be made to the Terrace Bay Recreation membership system.

Extra copies of these brochures will be available at the Recreation Office upon request.

COMPUTERS CAUSE MORE HIRING THAN FIRING

No matter what else computers have done, they are not responsible for mass staff layoffs.

A survey on automation in offices in Britain, reported in Office Equipment and Methods business publication, says that although the number of computers in use there has trebled in the past five years, not only have few layoffs resulted, but in some cases the number of staff has actually increased.

The unions which took part in the survey conducted by the Trades Union Congress did complain, however, that computer operators often lacked adequate training.
