medicines for children's health services. Educational supplies, materials for day-care centers, equipment for vocational training and for food-processing are supplied. Medical assistance is also provided: immunization against disease, as well as regular medical care and health and nutrition education, is part of the U.N.I.C.E.F. program.

The students at St. Martin's School want to do their part to assist in this work. You can help both them and U.N.I.C.E.F. by having your donation ready for the canvassers as they make their "trick-or-treat" rounds on Hallowe'en night. A few pennies from you can help U.N.I.C.E.F. to continue its important work around the world.
