THOUGHT OF THE WEEK

It is important that people know what you stand for; it is equally important that they know what you won't stand for.

UNIVERSITY EVENING

Wednesday, October 14th, a University Evening was held at Schreiber High School for the benefit of students, parents and interested citizens of Rosspport, Schreiber and Terrace Bay. Fourteen Ontario Universities were represented by at least one secondary school liaison officer. It is the job of these representatives to inform all interested parties concerning the opportunities and programs available at their particular university. The department of University Affairs, which issues Student Loans, was also represented.

The program was divided into three sessions, allowing the student to attend as many as three different universities' presentations. The sessions were mostly very informal, with free discussion between the representatives and the students.

The entire evening proved to be interesting, informative and enjoyable to those who attended. At the conclusion of the program, coffee was served by the Home and School Association, to whom we continued on page 19.....
