

**Board Meeting - cont'd from page 10 .....**

reading centres would be established in other divisional schools as well.

The recommendation that a AD HOC Committee be set up to study the extension of use of schools, including the Heron Bay School and possibly of summer courses in area for (a) teachers, (b) students, was approved. A Committee to be composed of one Trustee from Schreiber-Terrace Bay combined, Marathon and Manitouwadge including one Principal from each area mentioned with powers to add to the committee.

This committee should consist of three trustees and three principals (the Director ex-officio). Trustees K. Beasley, G. Fairservice and H.J. Coe will act on this committee.

The Board approved the recommendation that an AD HOC committee of Trustees be appointed to investigate, report and recommend on the problem of secretarial demand in elementary and secondary schools and the Board Office.

The Board offered to purchase the Portable Classroom at the Schreiber High School from the Township of Schreiber at the approximate price of \$10,000.00. Subject to Departmental approval.

The next meeting of the Board will be held in Schreiber on Saturday, November 14th, 1970 at 11:00 a.m.

Trustee Beasley stated that the matter of supply teacher salaries and additional custodial help in Marathon Public Schools should be brought forward at the November Board Meeting.

**BUILT-IN TRACTION MAT REPLACES SNOW TIRES**

A new invention reported in Canadian Automotive Trade magazine promises to do away with the bother of installing snow tires in winter.

The inventor has devised a traction system designed to be mounted on the rear axles. It can be flipped down to provide instant traction in snow or on ice where ever an assist is needed, then it flips up and out of sight the moment the car is in motion.

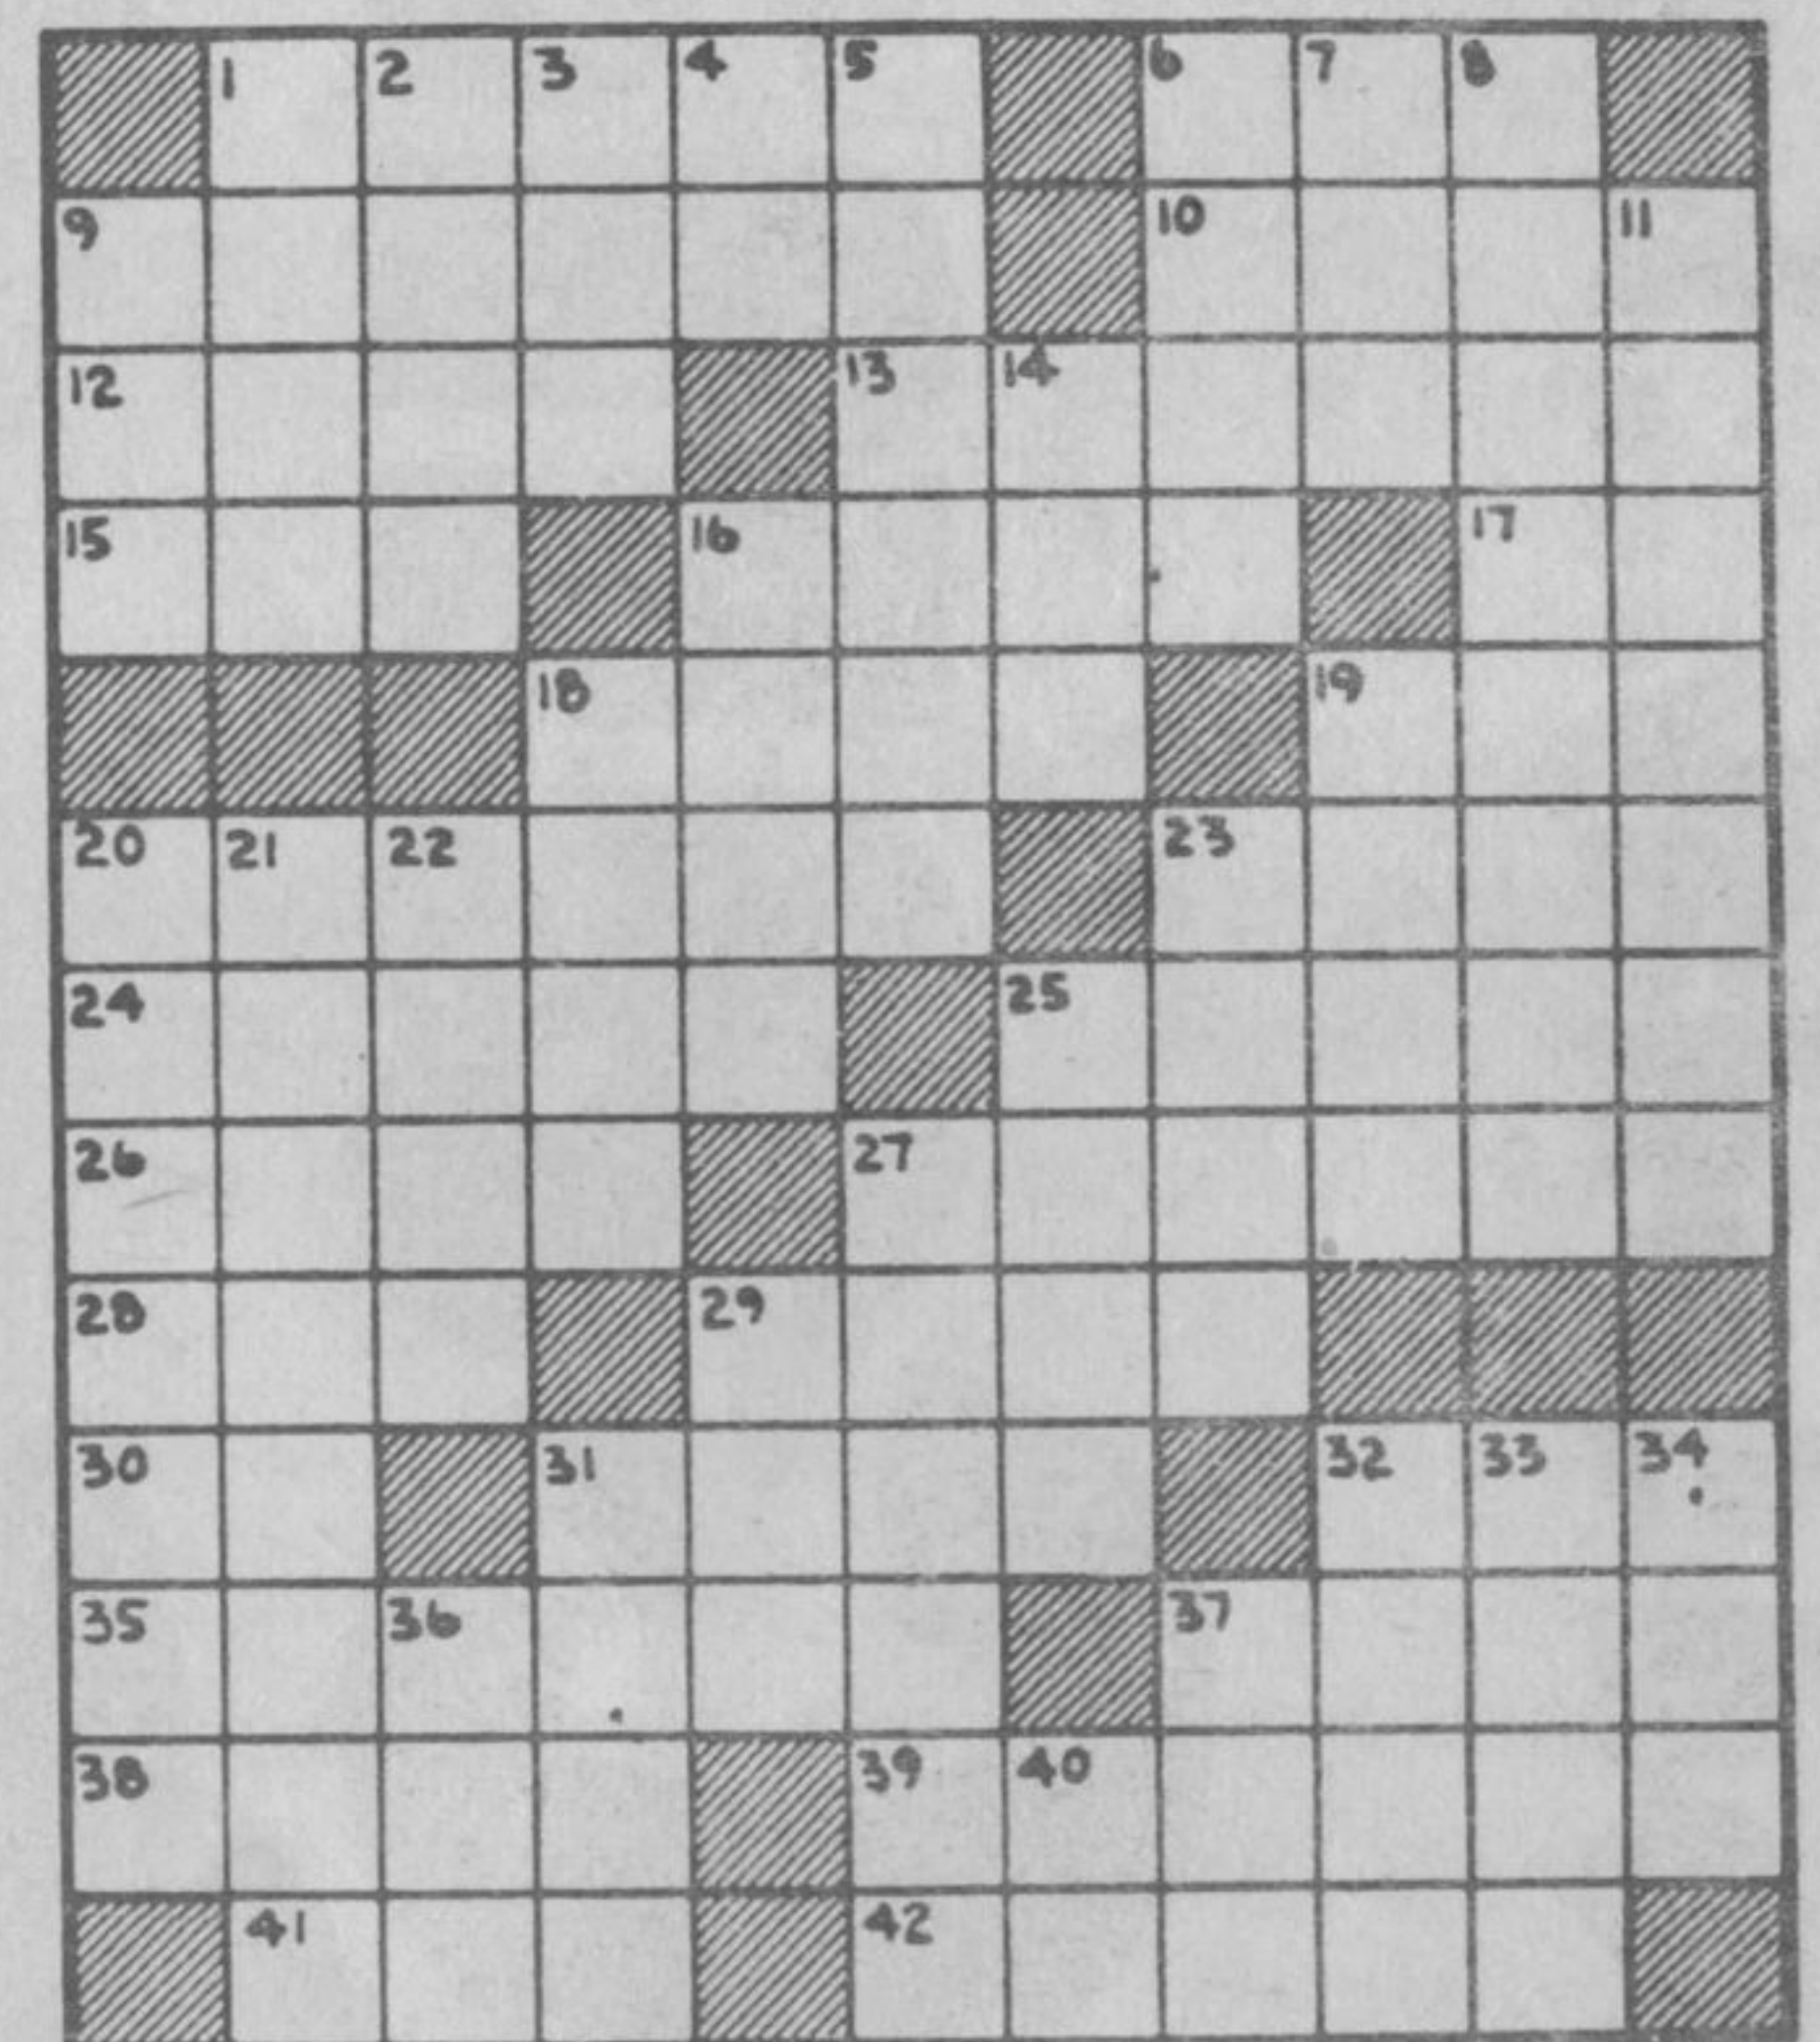

Comments Ed Belitsky, C.A.T. editor "Sounds great for those deep winters one experiences in Quebec and the Prairies. It should prove convenient also to any suburban commuter who needs snow tires for only a half-mile or so to reach the highway where such tires prove noisy and erratic at high speeds. It should also save millions of dollars of asphalt surfacing which is said to undergo considerable scoring

and wear from studded tires."

**COST OF THREE R'S RISING RAPIDLY**

Total cost of education in Canada for 1970-71 is estimated to grow by fourteen percent to \$7,635,000,000. according to School Progress magazine in a report based on the latest Dominion Bureau of Statistics estimates.

Despite modest growth in school population, the sharp rise results from growth concentrated in the cont'd page 19 .....
