Traffic on the Trans Canada Highway #17 was disrupted when the highway was washed out six miles east of Terrace Bay and at Rossport as a result of heavy rains.

A note regarding the removal of Warning Devices at Con-

struction or repair sites: - The removal of these warning devices constitutes a serious offence and creates a potentially dangerous situation for motorists. These warning devices are placed at these sites for the safety of the motoring public. Anyone having any information regarding the responsible parties is urged to advise the police as soon as possible.

## TODAY'S CHILD

BY HELEN ALLEN

This laddie with the winning smile is Ian. He will soon be two. He is a happy, cheerful boy who plays contentedly by himself and gets on well with other children. He loves attention, but does not demand it.

Ian was born prematurely, but has come on well and is in good health. He is alert and active and keeps himself busy exploring. He loves the outdoors. He is a bit slow in talking, but since he seems to have made up for his prematurity in other areas, he is expected to catch up in language development, too.

Ian's background is Austrian, Yugoslavian and Scottish. He is medium-size for his age, with blue eyes, reddish-blond hair and fair skin.

This appealing child needs parents who will not push him or set too high expectations for him, but will enjoy him for his sunny personality. To inquire about adopting Ian please write to Today's Child, Department of Social and Family Services, Parliament Buildings, Toronto 182. For general adoption information ask your Children's Aid Society.
