## "EDUCATION 71"

The Local Association for the Mentally Retarded are promoting an "Education 71" program. This program is designed to educate the public at large on Mental Retardation in Canada.

The ground work for the project was done in November 1970 when local organizations were contacted with the offer of a program to be presented at their monthly meeting.

To date the response has been gratifying, with five bookings in January and six in February. If any organization within the two towns would be interested in using the services of the Association please contact Mrs. F.A. Helmink, Box 384, Terrace Bay, Ont. or phone 825-3329.

"You're out of position, Henderson!"
