

Home and School Meeting - cont'd from page 16...

The President, Mrs. G. Fischer, presided and the minutes of the previous meeting were approved as read by the secretary, Mrs. H. Jartus. The treasurer's report was adopted as read by the treasurer, Mr. R. Grant.

A letter from the newly-formed Rosspport Recreation Committee was read asking for any used tables and chairs, also dishes, etc.

The youth groups will also paint or repair any usable equipment. If anyone has any equipment which can be used for this purpose, pick-up can be arranged by phoning any of the following: Mrs. G. Fischer, Mrs. H. Jartus in Schreiber or Mrs. C. Wilde in Rosspport. It was also planned to hold a bake sale in the school at 7 p.m. on Thursday, March 4th to assist the Rosspport Center Library.

Conveners are Mrs. E. Glad and Mrs. C. Wilde. They would appreciate all baking to be turned in by 6:45 p.m.

Mr. Saumur was in charge of the programme for the evening and demonstrated the use of the new Video-Tape-Recording Equipment, and he had many of the parents on "Candid Camera" as they entered the school, unbeknown to them, which provided some amusement when they saw themselves on T.V.

He described the use of the equipment in the regular classroom and three classes were shown in action.

Each teacher then gave a report on the value of this equipment to him and how it helped him to evaluate himself and also the students. Many important programmes on education can be taped and used at convenient times by the classes.

It will also serve as an effective workshop method for the teachers.

The next regular meeting will be Thursday, March 4th at 8 p.m. with parent-teacher visitation as usual.

A guest speaker from Thunder Bay has been invited to attend this meeting and an announcement will be made as soon as confirmation is received.

An informal coffee hour was held following the meeting.

---

Maurice G. Cataford, son of Mr. and Mrs. George Cataford, of Schreiber has been appointed chief estimator in the Estimating and Cost Department by the Stone and Webster Engineering Corp.

in Boston, Mass. Mr. Cataford joined Stone and Webster's Canadian subsidiary in 1951 as field engineer.
