BICYCLE USERS HEED WARNING

With the advent of spring and its accompanying warm weather, more and more youngsters are taking their bicycles out of winter storage.

Spring is a hazardous season for bicycles, and, as it is impossible for us to reach each and every rider, we urge parents to inform their children regarding safety on bicycles.

Riders must adhere to the rules of the road the same as motor vehicles. Stop signs must be obeyed and proper signals employed when turning.

It is illegal for more than one person to ride on a bicycle.

We urge bicycle riders to stay away from large puddles as it is not possible to ascertain the depth of these.

Every year more than half a million changes of address are recorded. Changes of name by marriage total 50,000 yearly.
