ONTARIO INITIATES PHOSPHORUS REMOVAL PROGRAM

A program designed to curb excessive algal growth in Ontario waterways while stimulating recovery in existing problem areas has been launched by the Ontario Water Resources Commission.

The program, incorporating a timetable, requires the installation of facilities capable of removing a minimum of 80% of phosphorus from sewage at municipal and institutional sewage treatment plants throughout the province.

Phosphorous is one of the essential nutrients for

O.P.P. PRESS RELEASE

the past week. Included in this list were 5 private dwellings and one school, all victimized during the past month. Appropriate action will be taken through the Courts. Investigations are continuing on several other break-ins and hopefully these will also be cleared in the near future. Sincere appreciation is expressed for the fine cooperation received in this regard from various local residents.

At 9:30 P.M., April 9th, Constable Lapworth was called to the home of Orvel Sainsbury, to investigate a break-in. The responsible persons forced a door to gain entry. They fled without stealing anything when interrupted by the owner who was on the premises at the time. Investigation is continuing in this regard.

Investigation by Constable Jones on April 8th at 8:30 p.m. resulted in a charge of consuming liquor while under the age of 21 years against a Schreiber youth. The offence took place prior to a complaint from a local restaurant. Summons has been issued.

Various other investigations of minor nature were conducted and numerous requests were made by home owners for checks on their premises while out of town. A 15 year old juvenile from Toronto, reported to have run away from home, was located at Schreiber. Parents and Authorities at Toronto were advised.

A total of 4 property damage accidents occurred during the week. No injuries resulted out of any of the mishaps. Two of the collisions were in the town of Schreiber with a total of approximately 11½ miles north of the Mill on the Kimberly-Clark woodlands road and the 4th occurred approximately 5 miles east of Terrace Bay.

At this time we would like to impress on the parents of children the importance of urging your children to play off the streets and roadways where possible.

SCHREIBER DETACHMENT O.P.P. PRESS RELEASE

As the result of intensive investigation by members of Schreiber Detachment a total of 6 break, enter and theft occurrences were brought to a successful conclusion during
