TERRACE BAY HIGH SCHOOL OPEN HOUSE

Tuesday, April 6, 1971, was the day that much lively activity was going on at Terrace Bay High School - Open House. Many parents from Terrace Bay and Schreiber were pleasantly excited over what they saw. Comments were of the highest for both student and staff. One comment was, "After seeing the achievements and the facilities of this school I will not complain about my taxes."

As our parents entered the front door they were able to see themselves on T.V. because of our E.T.V. equipment which was acquired last fall. The Mass Media class also presented their documentary on Terrace Bay High School that they had prepared this school year.

The audio-visual shows that were prepared by the students of Levels 3 and 4 English class were well received. The students, by means of slides, would interpret modern rock songs.

Students in the Electronic shop gave demonstrations on how to make lamps out of plastic flower pots. In this room our Ham operators demonstrated the use of the Ham radio. They were able to contact another school station in New York State.

Our mechanics in the automotive shop showed
