

ANGELS HARP - Cont'd from page 21 ...

Photo Below - Jane Dampier is pictured with a group of her students. They have just completed an art lesson on sketching.

Photo Below - A member of Holy Angel's Staff who seldom "gets into the picture" is Mr. John Small. John is our "man behind the camera" and does a terrific job of snapping interesting happenings at our school. Johnnie on the spot is pictured here in very happy spirits.

Photo Below - Casey Gehrels conducts an experiment on meal worms in the grade four room.

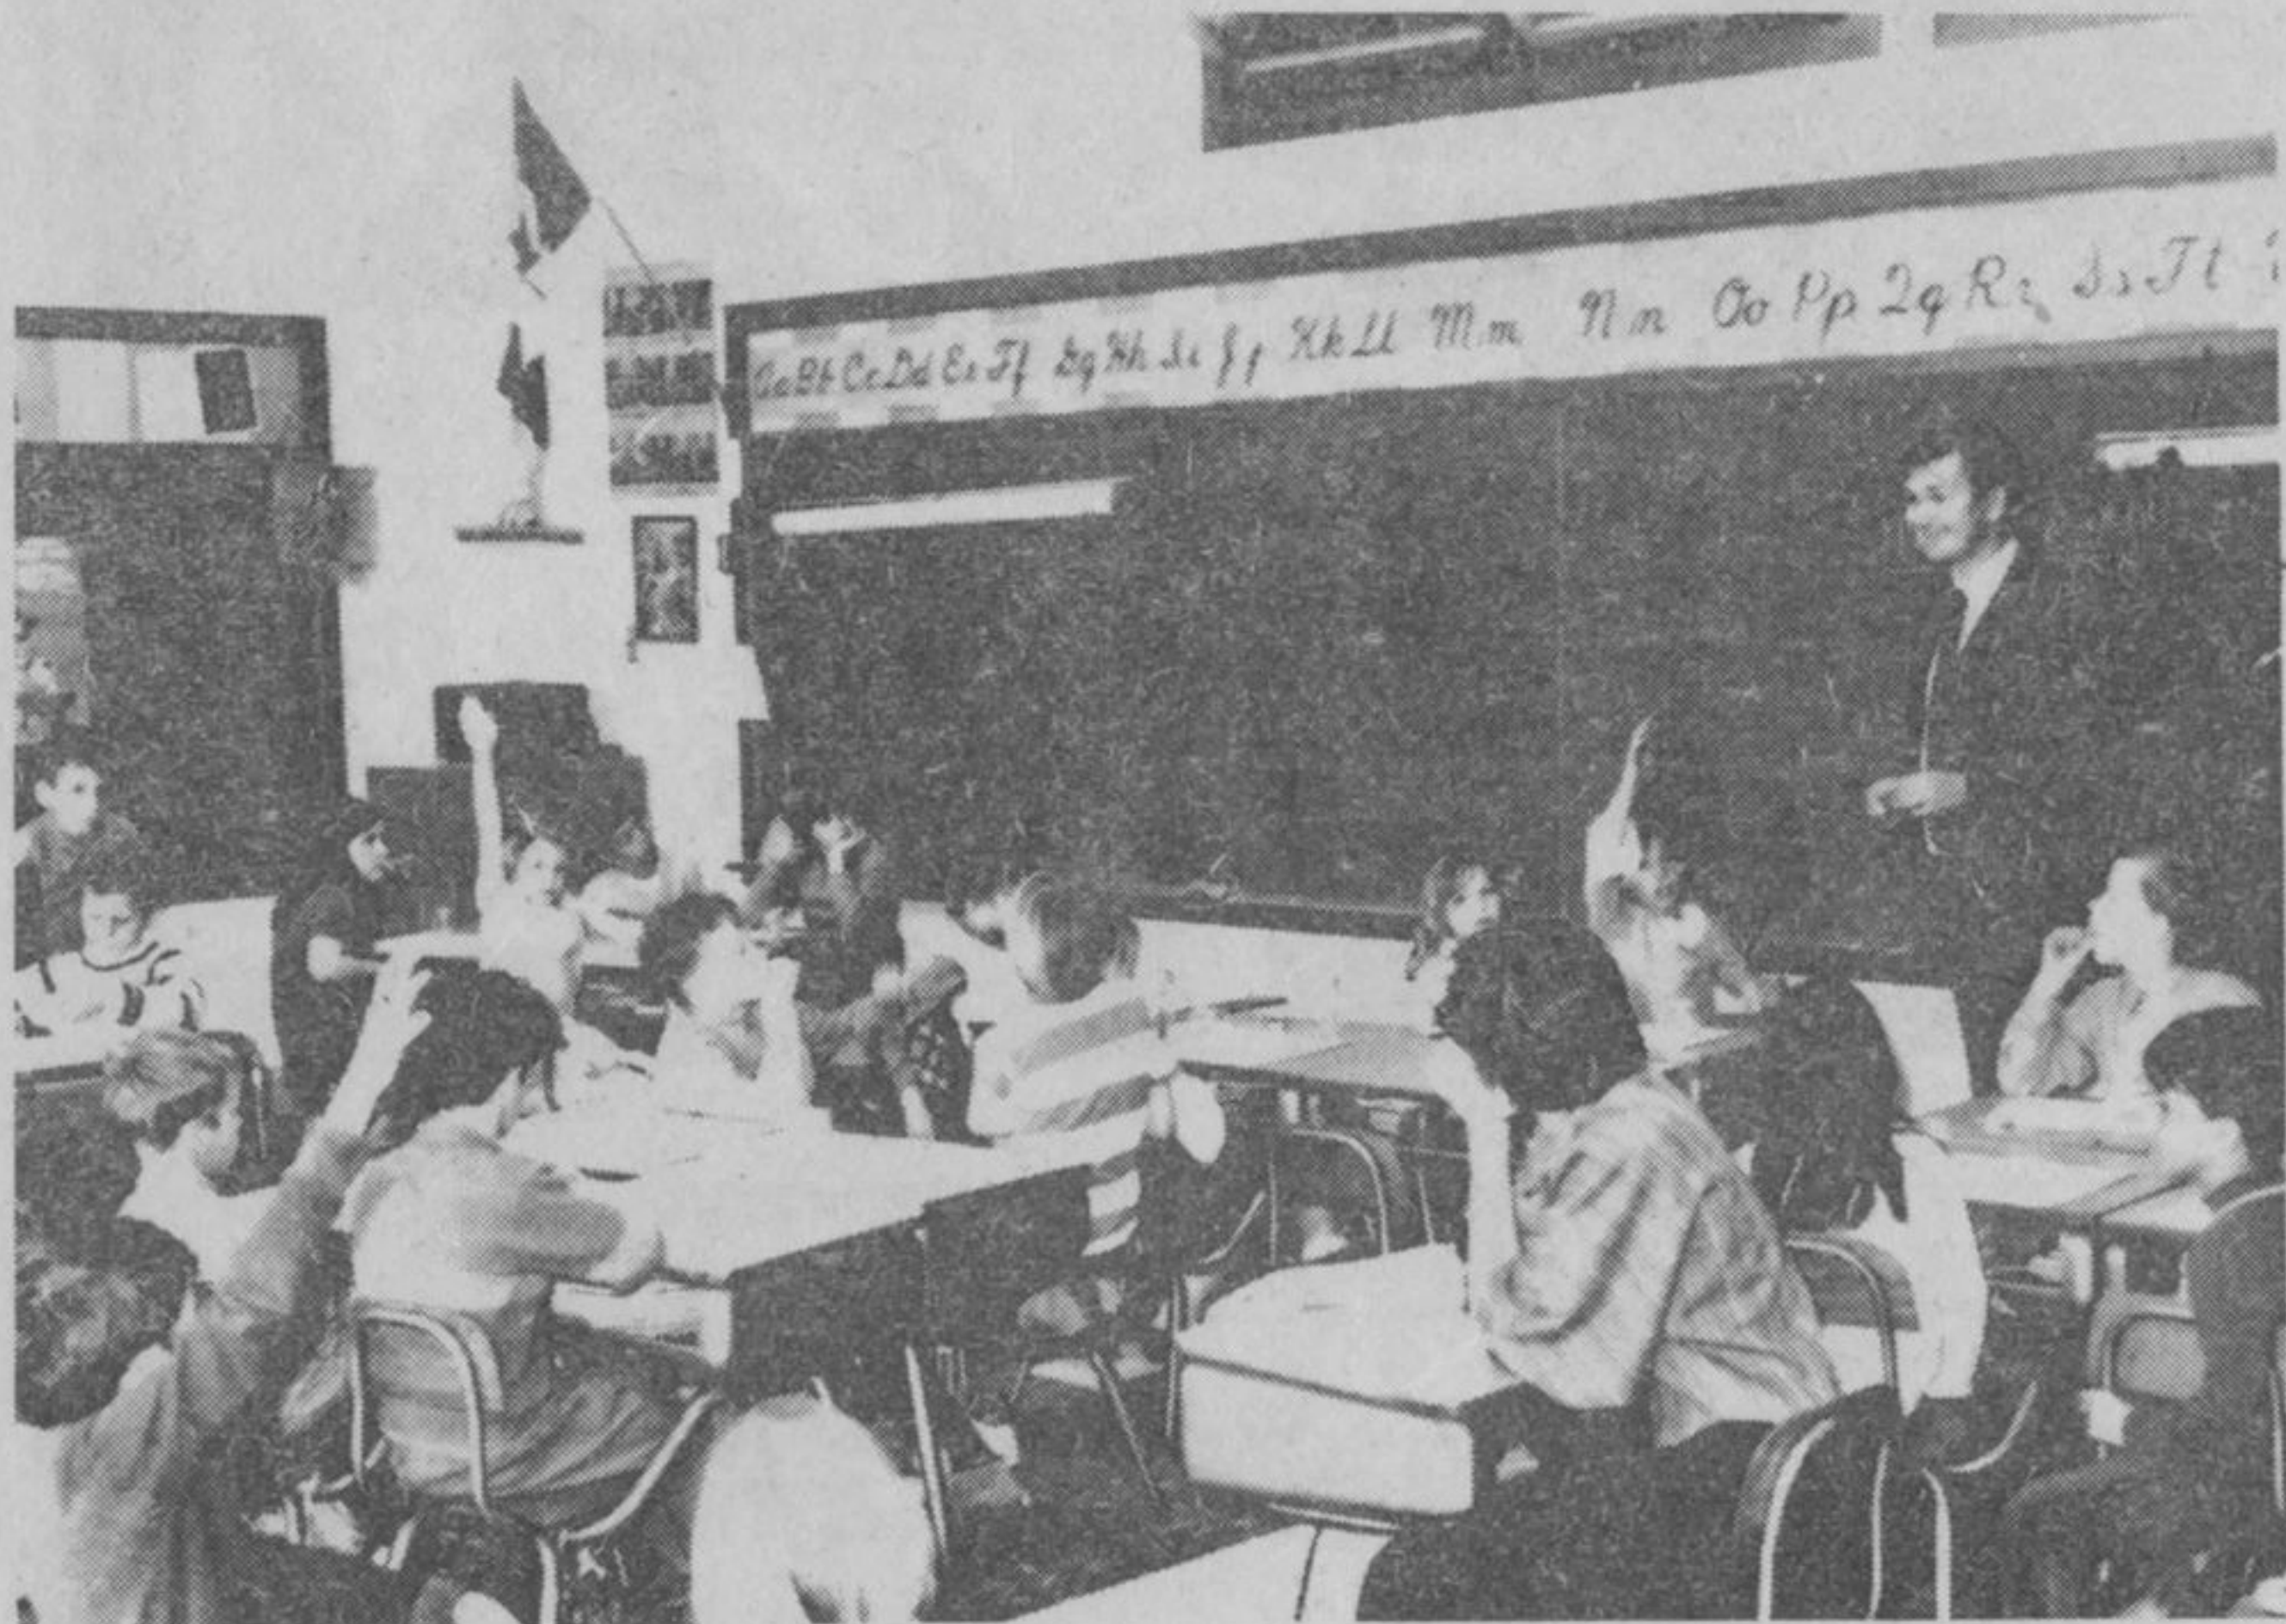

Photo Below - Casey Gehrels, Science Consultant for the Department of Education visited our school recently. The grade two room was a beehive of activity when the class was introduced to its initial lesson in experimentation. Pictured here is Casey, helping Paul Moorey, Dominic Commisso, Paul Bedard and Stephen Speziale with a paper experiment.

### SCHREIBER DETACHMENT WEEKLY REPORT

During the past week five liquor investigations were conducted by members of this detachment, resulting in charges being laid against five (5) Terrace Bay residents and one Schreiber resident. Subjects to appear in Provincial Court in June.

No collisions were reported during the week and no criminal complaints were received.

Now that the warmer weather is here, motorists are reminded to use the car ash tray instead of the window. Several small brush and grass fires have occurred recently. The Department of Lands & Forests advise that in case of a forest fire call long distance and ask for Zenith 92000 (no toll charge) or call the local Lands & Forest office 825-3205.

Motorists are reminded that no matter where or when you drive, there's no time when you can safely ignore highway warning signs and pavement markings. They warn you of curves, intersections, railroad crossings, school areas and other conditions where extra care and caution are required. Don't forget - Highway signs and pavement markings can be your guides for a safe journey - whenever and wherever you go.
