## "Above average"

Don is a sturdy, slim, handsome boy of Negro descent, with lovely brown eyes, black curly hair and dark skin. He is above average in intelligence, so he should have a family where there is good stimulation, encouragement and opportunity.

Healthy and active, Don likes to play outdoors. In the house, he spends a lot of time with pleasure books. He likes to work out puzzles and he enjoys coloring. He's a Sesame Street enthusiast and his other favorite program is Mod Squad.

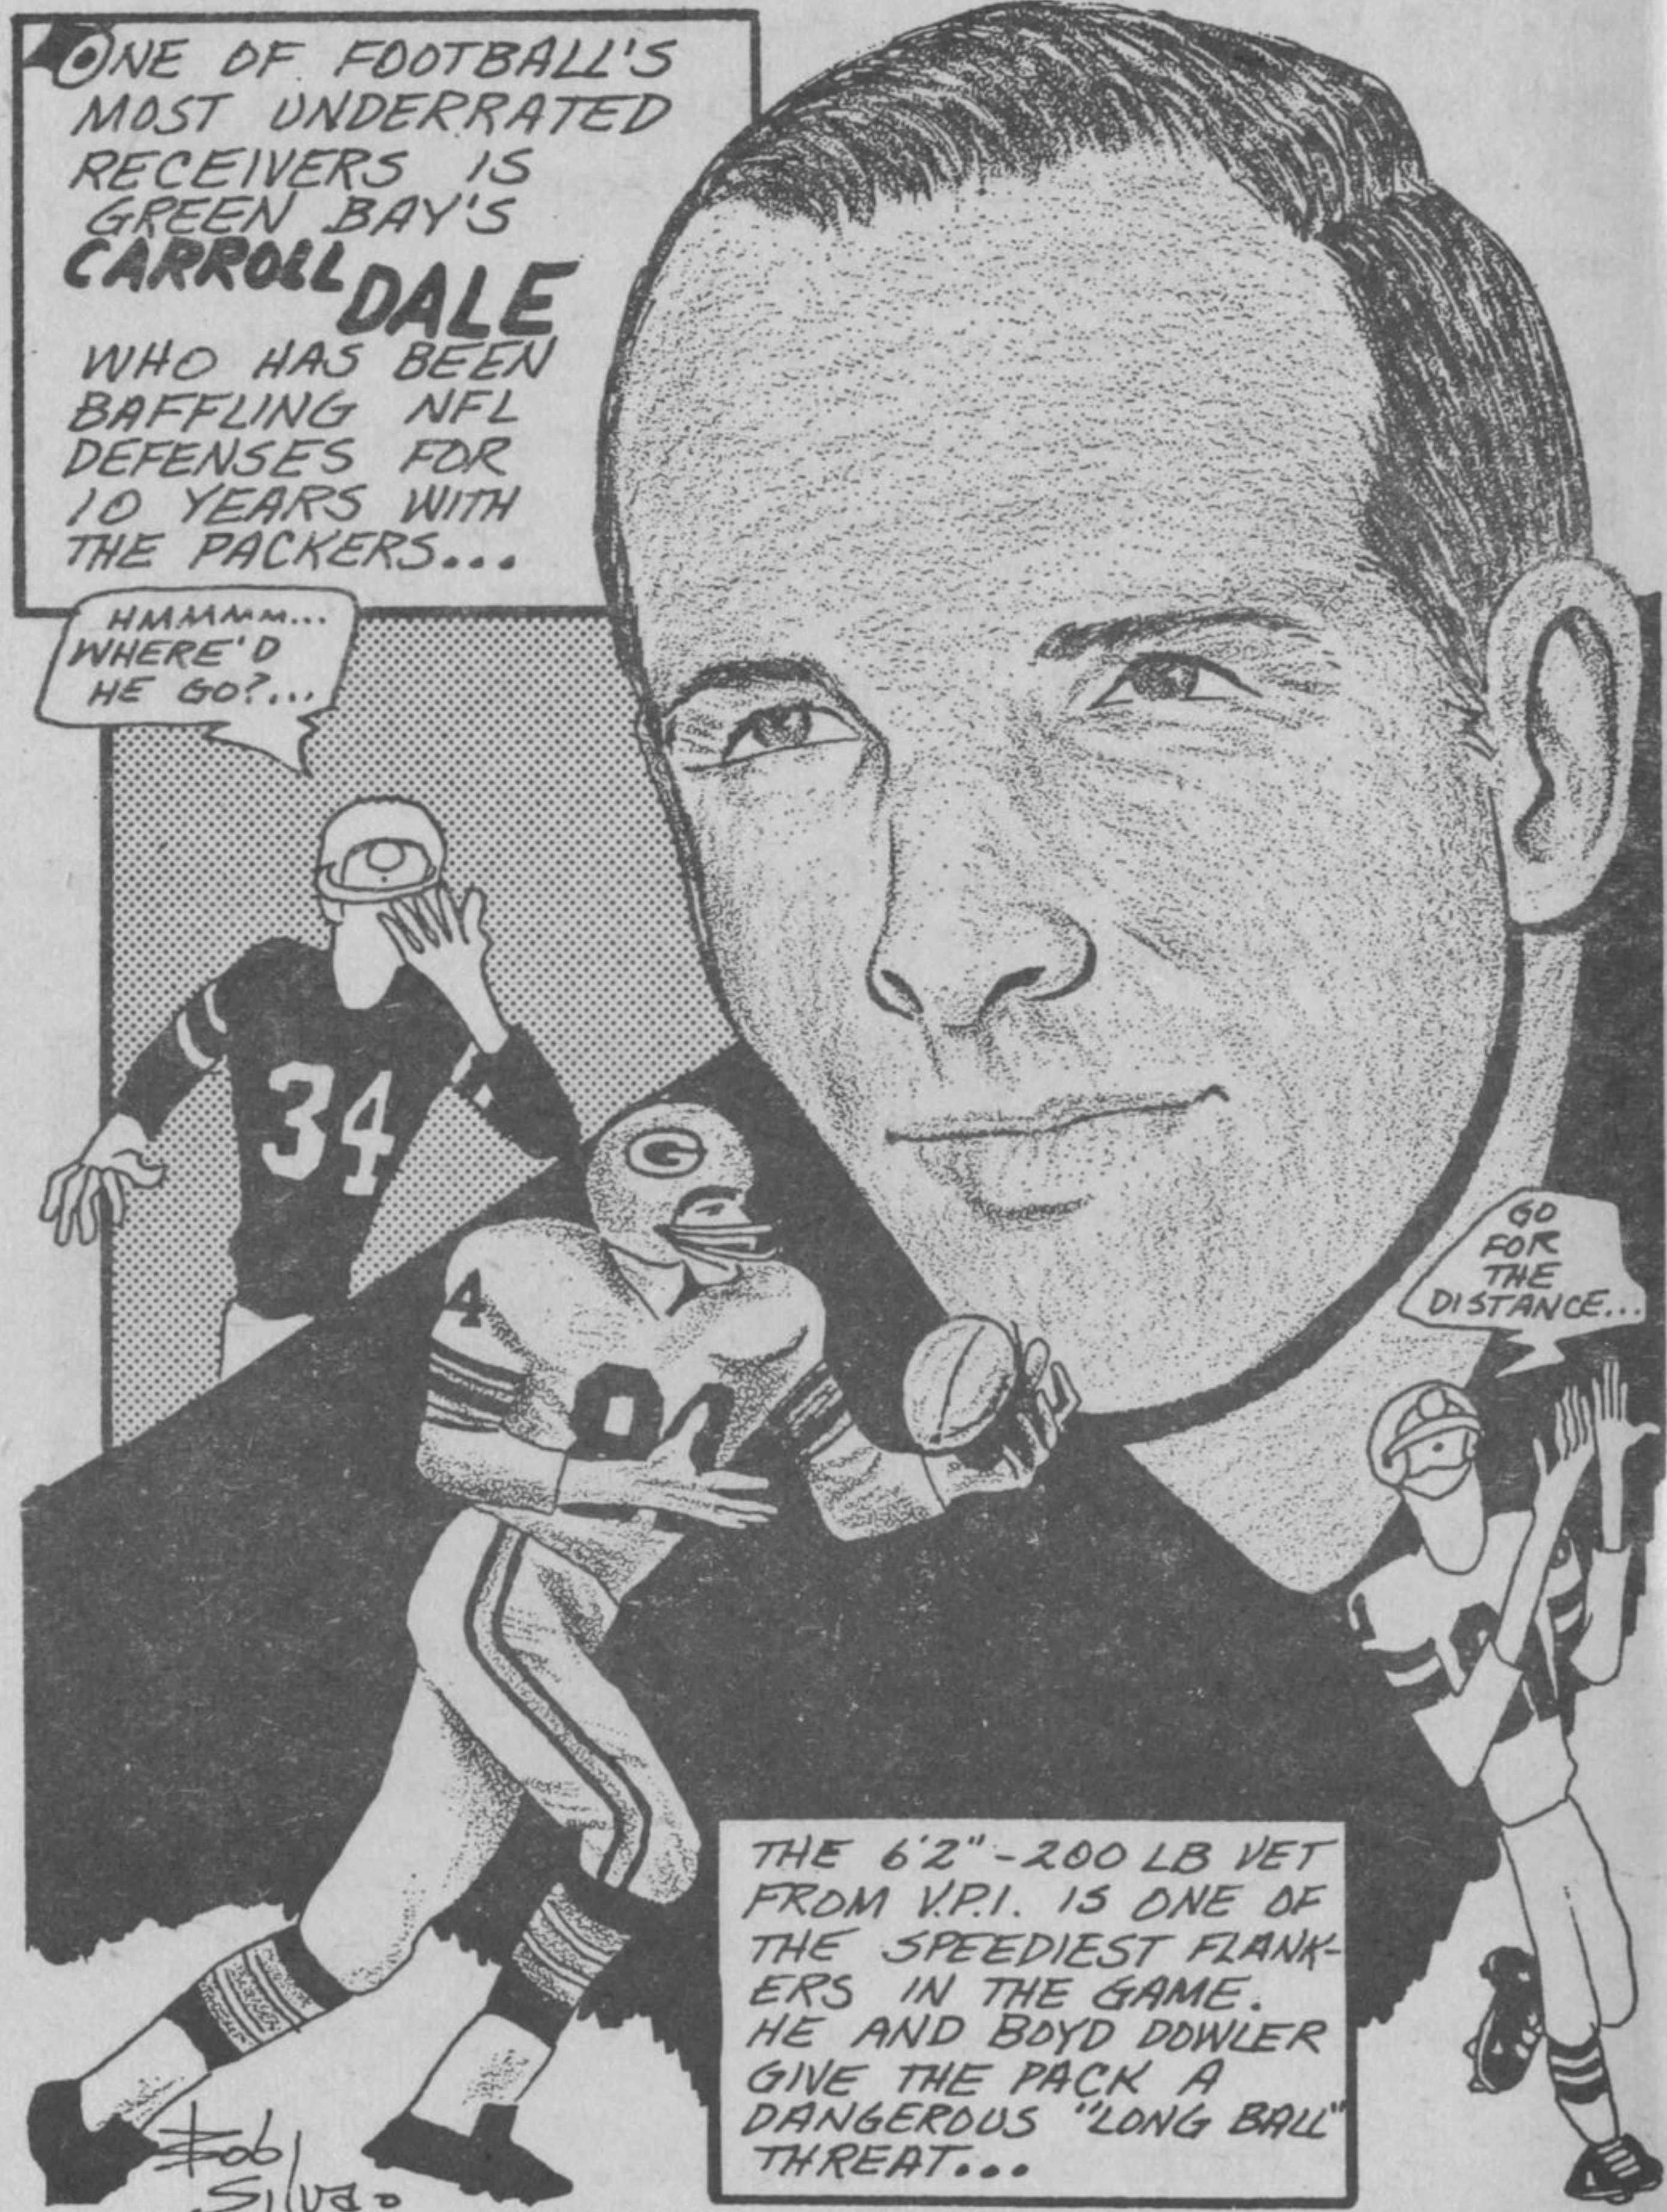

Don has been a very shy boy, but with nursery school and kindergarten he is getting over that. He meets strange adults easily and talks quite readily. He has been living in a quiet foster home and is not used to the hurly-burly of a big family, so it is felt he would be happiest in a home with not more than one or two children.

To inquire about adopting Don, please write to Today's Child, Department of Social and Family Services, Parliament Buildings, Toronto 182. For general information, ask your Children's Aid Society.
