

Curling Club News - cont'd from page 10

The Mini-Bonspiel this Saturday will officially open the 1971-72 curling season. There's an advertisement on page 10 of this week's Terrace Bay News that gives all the information concerning this Mini-'Spiel. (Please note the change in the entry fee: it's \$1.00 per person rather than 50¢ as announced in last week's column ... but you'll get more than your dollar's worth ... besides the good curling and congenial companionship, there'll be refreshments available and dancing to the music of The Midnight Hour. Contact Hugh Brophy (825-3285) to enter this mini_Bonspiel.

GRADE 8'S WORKING THEIR WAY TO TORONTO

There was no "generation gap" separating the parents and students of the Grade 8 class of St. Martin's School when they discussed the plans for the proposed class trip next June. Both groups felt that Toronto was the most suitable destination for the trip and that the students themselves should bear the responsibility of raising most of the money for the trip. The Class Executive, elected by the Grade 8 stu-

dents, represented their classmates at a meeting of the parents last week and joined in the discussion of the adults as the topics of destination and fund raising were deliberated. The members of the Executive whose picture appears on page 12 are Joanne Rajotte, President; Gordon Persson, Vice-President; Anne Louise Regis, Secretary; Ron Lapenski, Treasurer.

Generally, the opinion was that most of the money should be raised "internally"; that is, within the class and the school itself with a minimum of door-to-door projects. The people of Terrace Bay have been exceptionally generous in the past, but everyone felt that student fund-raising often took advantage of this generosity. To acquaint all the citizens of Terrace Bay with this year's plan, it is being outlined here in the hope that the people of the town will again give their support, this year in a slightly different way.

The bulk of the funds will come from money earned individually by the students. Each student will be required to contribute \$50. to the "fund" (\$5.00 per month for the 10 school months) and parents and students both agreed - cont'd page 12

NOTICE

A gate is being installed across the road which runs easterly through the jackpines from the edge of the fire break on the south side of the Highway. The gate will prevent the passage of cars and trucks into this area. The road area will still be open to pedestrians, bicyclists, etc., who are welcome.

We regret having to place such restrictions but in this instance, despite signs that have been posted, cars and trucks are depositing solid waste including unsanitary material contrary to Department of Health Standards.
