"HIGHWAYS OF AGONY"

The movie entitled "Highways of Agony" was shown in the gymnasium at 3:30 p.m. on Monday, October 25, by O.P.P. Constable D. Anderson. All students were invited to attend; however, some chose not to, as this was a "shock movie". A warning was given, before the movie began, recommending that anyone under the age of 14 not attend. This film was sent here by the Ohio police.

I think that the reason the film was so successful was because it seemed to include very gory detail of highway accidents. When we saw the accidents and the condition that the passengers were in; it made us stop and think how our friends or even ourselves would look if we were involved in a similar accident.

The reason that I stayed to watch the film after school was because I was curious to see whether it was one of the usual types of films involving only the minor accidents. I realized after the first few minutes that I was wrong: the film wasn't vague but very revealing. It didn't seem to leave even the smallest detail out. I was disappointed in the attendance because I feel that every student could benefit from viewing a film of this type. I hope that every student who watched the film has become more aware of the traffic rules.
